IS THIS YOUR PIECE OF KENT ...?

Probably not - its a random cutting from one of the wonderful aerial photographs taken by our associated Company Hunting Surveys Limited for Kent County Council.

But look at it - with a magnifying glass, microscope or whatever you like, see the fine detail, imagine the depth of the new dimension that an enlargement of this would bring.

Your property is on one of these photographs.

Have you seen it from the air looking straight down from a height of 10,000 feet in excellent weather ...?

Now you can - an enlargement direct from the big original aerial negative only 43/- (p.p. paid) for an 18" x 18" enlargement the fields and houses twice as big as the cutting above. Or, 83/- for a 36" x 36" with the detail four times as big.

Tell us exactly where you are, with a sketch, tracing from a map, or in any other way and send us a cheque for either 43/- or 83/- and you will learn more about your part of Kent then ever before.

for: Yours faithfully,
AEROFILMS LIMITED

W. H. Brooker
Director and General Manager
