Our ref: 53PA.T29/1987
Your ref:
Date: 30th September 1987

Dear Mrs. Wilkinson,

Core Census Point CP.851: Bridge, Kent

Thank you for your letter of the 17th September.

This is one of a number of national census points spread throughout England and Wales. The Kent County Council, acting as agents of the Departments of the Environment and Transport, organise the employment of enumerates to carry out this work with the cost paid from central government funds.

Should you wish to know more about the background of national censuses and the uses to which traffic statistics are put you may care to contact - The Road Traffic Census Unit (Core Census Point CP.851), Department of Transport, STC. Division, Romney House, 43 Marsham Street, London, SW1P 3PY.

Yours sincerely,

for County Surveyor
