Dear Ms Whitaker,

**Bridge History Society
Parish of Bridge, Canterbury City Council
Kent**

I have received, thank you, your letter and enclosures of 22 April 98.

I am somewhat confused as the enclosures relate entirely to aerial photographs and I was given to understand that you also held building photographs. I refer to my original letter dated 26th March 1998 which asks for this information (copy attached)

I would be grateful for a search and list in this category if that is possible.

Yours sincerely

Mervyn Gulvin

Dear Sir

**Bridge History Society
Parish of Bridge, Canterbury City Council
Kent**

I have received, thank you, your leaflets about the National Monument Record Centre and following the advice therein write to ask for details of a preliminary search and costings.

The Society is recently formed and wishes to gather material about the village properties in order to form a basis for the society's future work. I would therefore firstly wish to know what records you hold related to the village in the buildings section; secondly what air photographs are held - dates, etc; thirdly what other information may be held.

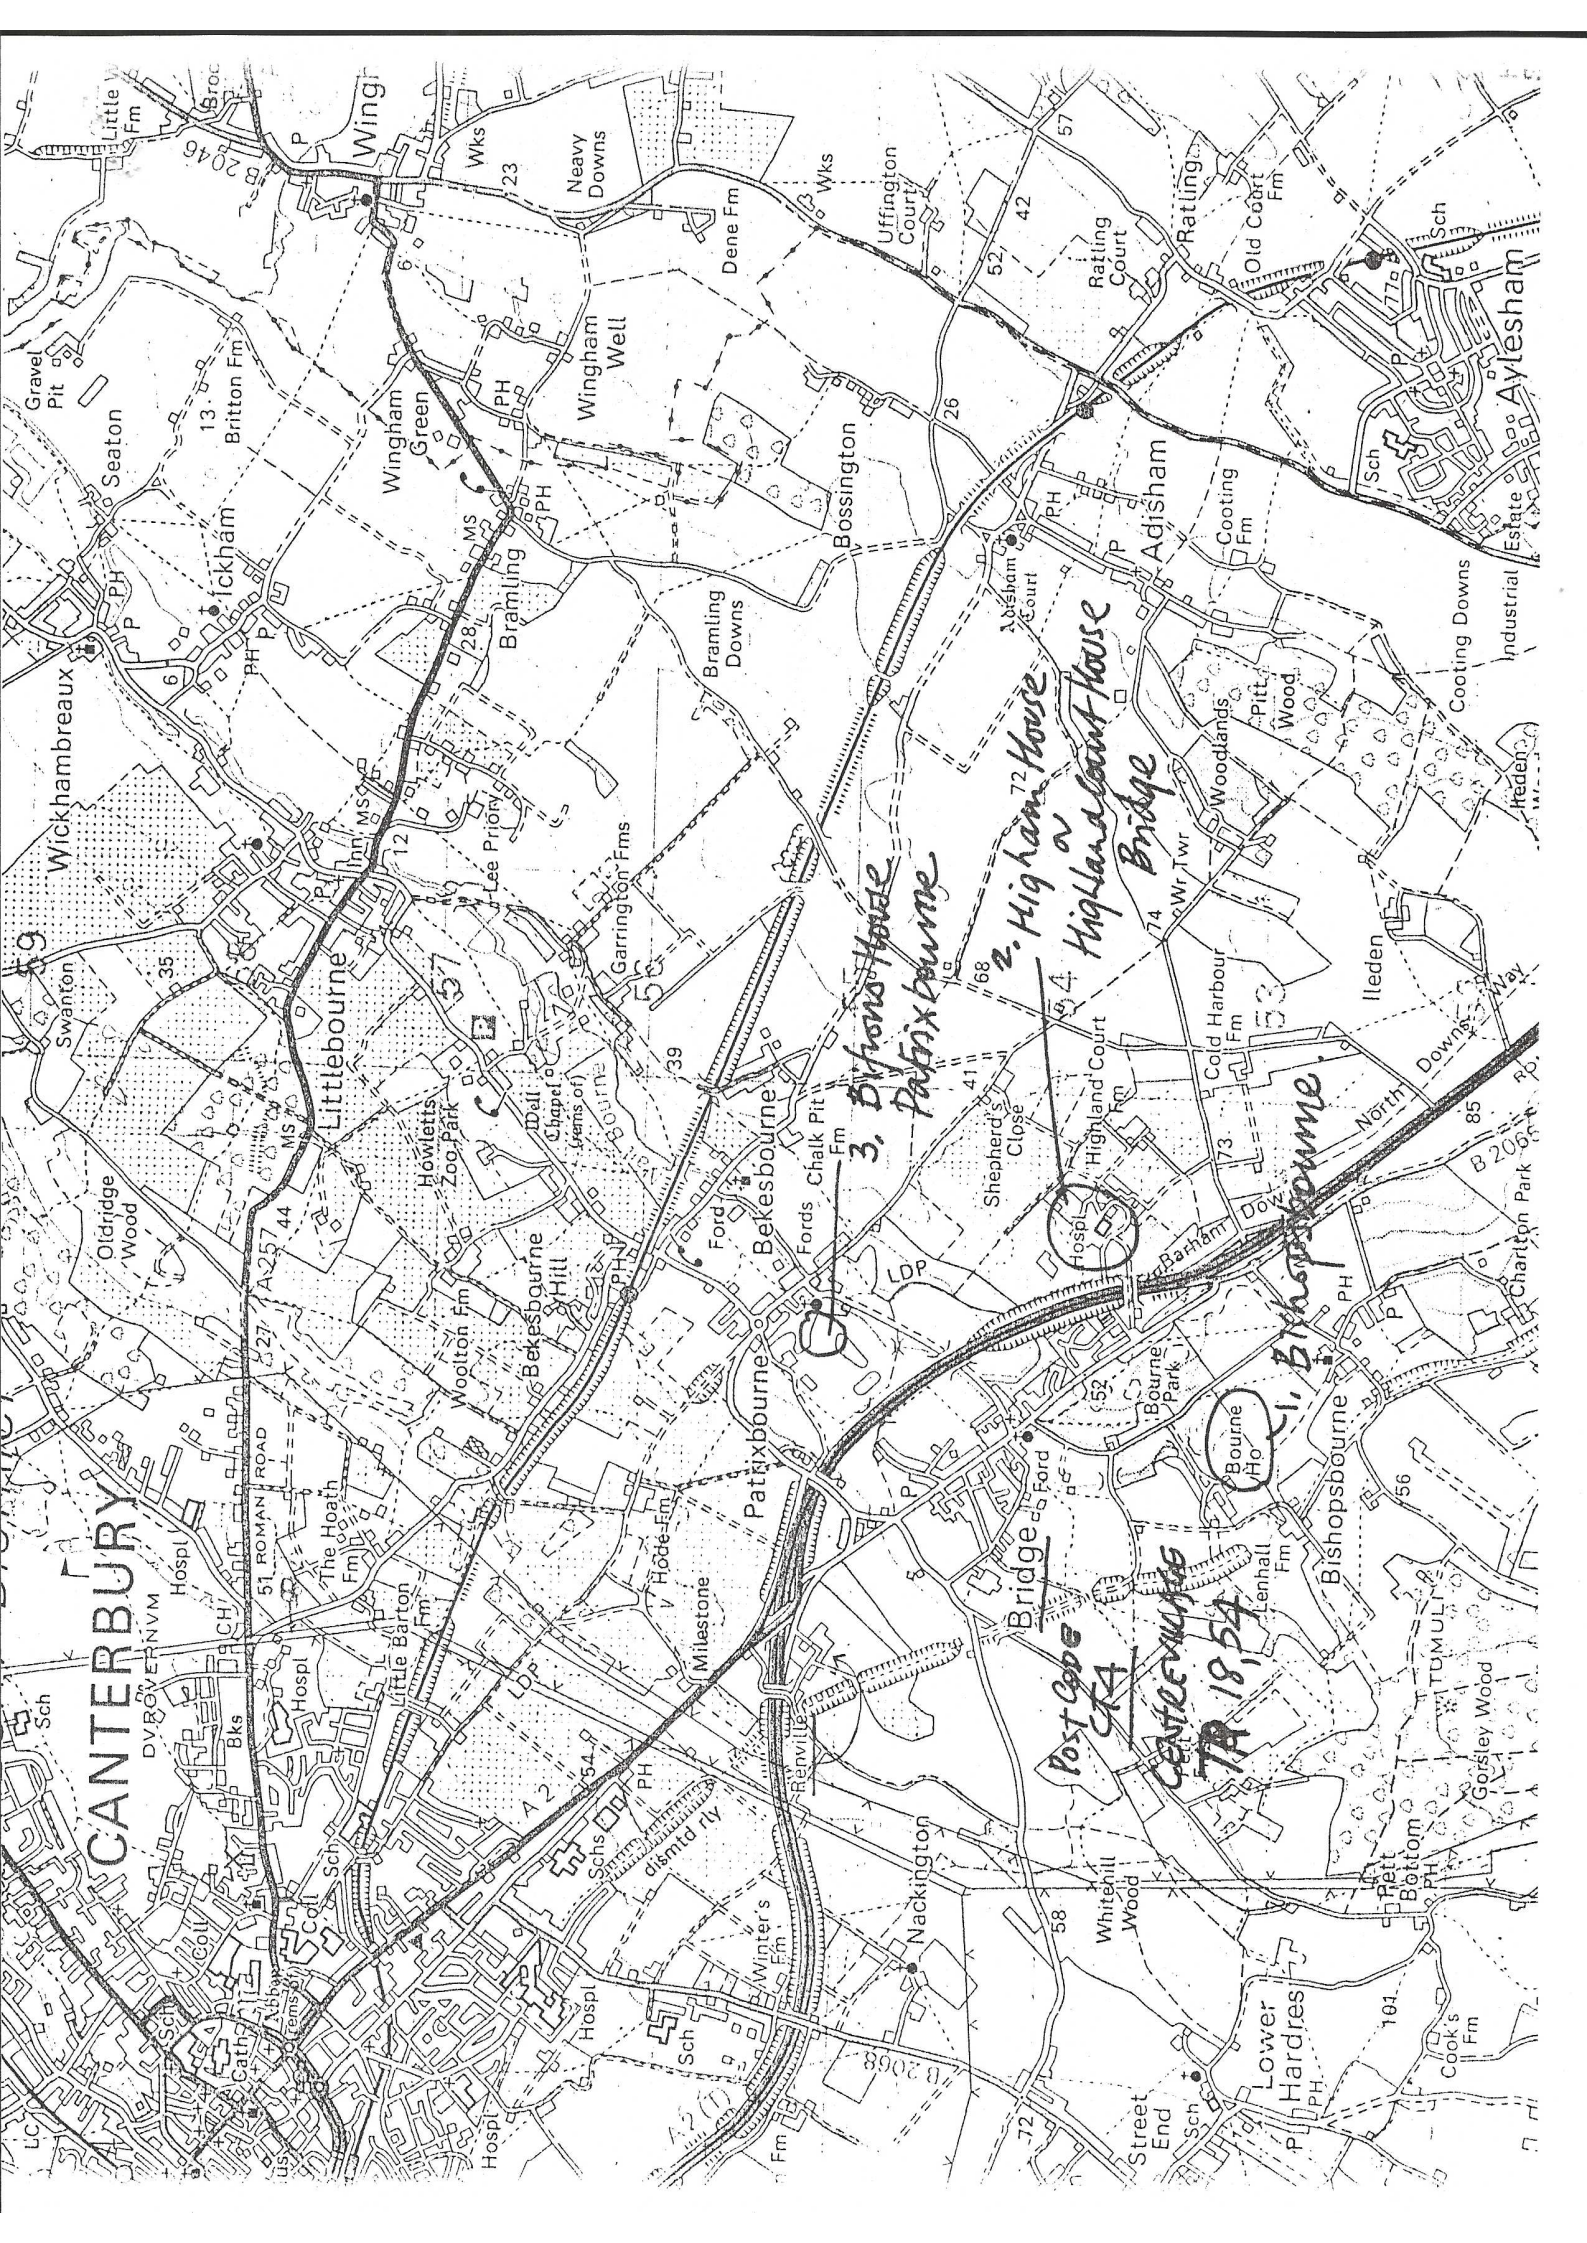

I do propose to visit the Centre at the end of April which would allow a selection (if required) to be made and I would like to firm up the date nearer the time.

The Society does not have extensive resources but obviously you may have details on more than three buildings. I would be grateful for your advice on the likely costs of obtaining copies of the various pieces of information.

Finally I enclose a photocopy of the abstract of the local O.S. sheet showing the village. I have also marked three further substantial listed properties which the Society would also in due course like to investigate and again I would be grateful if you could advise what data is available.

Yours sincerely

Mervyn Gulvin
