6 October 2002

*Maurice;*

I sent this by e-mail but it came back undelivered because the address I have for you is 'administratively disabled.' I enjoyed your talk the other evening and was glad you did not forget the fire brigade!

I have just acquired a 1902 Kelly's Local Authorities Companion which contains assorted county, district and parish information, probably already within your knowledge but, in case not, here are some local details that I have noted. I hope they may be of some use.

*Regards,*

*Roger*
