---

Dear Customer,

Further to your order, we are pleased to enclose your aerial photograph(s) as requested.

There are other sizes available from 7" x 5" to 12" x 18" which we can produce immediately. If you require larger than 12" x 18" prints, they can be made, but are classed as special orders and take a little longer to produce, as they have to be sent away.

We hope that the print is to your liking and should there be any questions that you may wish to ask, please do call us either via mobile or at home, and, if you have the access, email us at [info@channelphotography.com](mailto:info@channelphotography.com)

Storing your prints in photo albums protects them from both airborne contaminants and light and assures them the longest life. If you are displaying your prints in picture frames, mount them under glass to minimise exposure to humidity, cigarette smoke and other atmospheric contaminants. Avoid placing them in direct sunlight or near sources of bright light.

We do make regular aerial sorties over this area and if there is a particular area that you require a photograph of, please do call us. We make no extra charge for commissioned aerials, the only thing we ask is that you wait until the next flight (which is about every six weeks, WEATHER PERMITTING!). Keep an eye on the papers as we plan to run this feature for many weeks to come.

Kind regards,

Channel Photography
