..... 16th April 2000 (date)

7.00 a.m.

8.00 a.m.

9.00 a.m.

I woke up around 8.30 am so that I could go to the church in Partridge with my mum and Megan. We picked up Joy from next door and travelled to Partridge for the church service at 9.30

10.00 a.m.

Rev. John Shorrocks took the church service, this finished at 10.30, we had to leave promptly as we were getting ready for my grandmother's 94th birthday party.

11.00 a.m.

We took Joy home and began to get ready for the party. My cousin Keith and his wife and children arrived at about 11.30. They came earlier from Farnborough (Hampshire) to help us get ready.

12 noon

It was soon time to take some of the food for the party to the hall. We had decided to book the village hall for the party so that we could give everyone a hot meal, as our house is too small. My cousin took the food in his car as the crockpots were far too hot and too heavy to carry down the road. We spent a busy hour preparing the hall. My cousin strung a lot of balloons above the table on the rafter.

1.00 p.m. Everyone started to arrive for lunch. The entire family were there, (except 2 cousins). We had also invited my grandmother's sister and sister-in-law, she had not seen them for a long time so it was a nice surprise for her. My uncle picked her up from Hythe a little earlier in the morning.

2.00 p.m.

We all enjoyed the lunch. The table was decorated with a white tablecloth with a purple/lilac cloth in the middle. There were floral decorations at each end and lots of cards and presents at my nan's place. The food was great, we had crockpots, beef and chicken, salad, bread, germanium, quiche and then for dessert, roulade and birthday cake.

3.00 p.m.

Nan opened her presents after lunch and my second cousin wrote down what she had received. She also stood up and thanked everybody for coming - which was impressive for 94!

4.00 p.m.

I had a nice time talking to my cousin's wife who has just had her baby 3 months ago, he is really lovely and was really good as everyone was making a fuss of him as a lot of the relatives had not seen him before. We had a lot of photographs of various people including 4 generations, grandmother and her children and granddaughters.

5.00 p.m.

We spent some time packing the hall up, we had so much help from all the relatives, that it didn't take very long to get the hall back to some sort of normality.

6.00 p.m.

Gradually everybody drifted off to their homes and we went back home to the close. My uncle went to drop off some relatives back to Margate and came back at around 7pm.

7.00 p.m.

We had some tea after my mum put back all the glasses and plates that we had taken to the party.

8.00 p.m.

My uncle stayed for tea and played Bridge, he was telling me about his holiday in South Africa which sounds quite exciting.

9.00 p.m.

My uncle took me back to ~~the~~ Wye as I needed to go to work the next day in the hop fields. I caught up with all my college friends and told them about the weekend's events, which apart from the party included seeing my boyfriend on the Saturday and walking to his house in Canterbury from Bridge which was very enjoyable, in very nice weather.

10.00 p.m.

Sunday night in Wye was raining, it was terrible weather when my uncle dropped me off. I thought I'd had a really nice weekend and began to get ready for the following working week.
