The beautiful Bridge in porcelain

Exclusive designs

Many hours were spent in searching for the most beautiful places of Bridge.

The result is a collection expressing the very heart of Bridge.

The specially selected scenes are carefully detailed. The artist's sense of detail and his **refined drawing technique** ensure a delightful result.

If you look at the drawings, you will agree. This unique collection shows the living heart of Bridge.

Stylish 18-carat gold

Each design is finished with a stylish border in green and gold. The detailed designs are worthy of this 18-carat gold border, even though it has to be burnt into the porcelain at **780° C**.

This extremely high temperature is required to produce a **perfect fusion** between porcelain and gold.

It is an age-old technique requiring utmost **precision**. Only this method guarantees a flawless result.

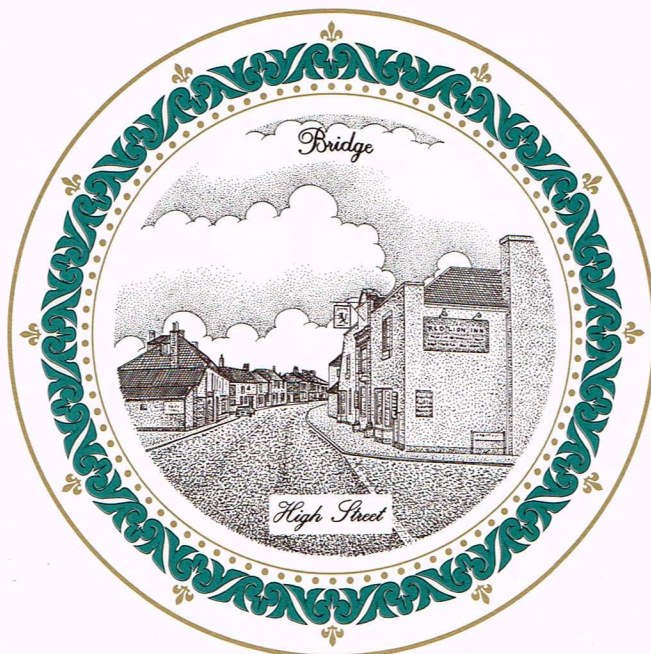

Precious porcelain

The designs are burnt into the porcelain at 600° C in kilns specially constructed by ourselves. The drawings are set against the white porcelain background **millimetre perfect**, so that no details are lost.

An unprecedented price

This unique and precious collection is offered to you directly, which means that the collection will only cost £ 14.95 (incl. VAT) per plate.
