

Public Exhibition

Nackington Farm

Solar Park

Green Energy UK Direct Ltd and Carillion Ltd are proposing to build a Solar Farm on the land at Nackington Farm, Nackington, Canterbury and we would like to invite you to a public exhibition.

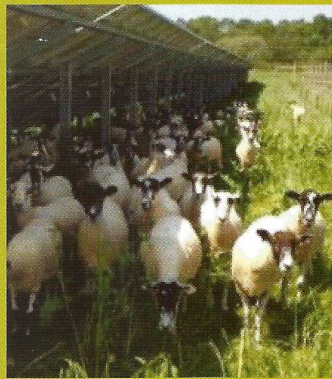

The public exhibitions are held to provide the local community with the opportunity to find out more about the proposals for the Nackington Farm Solar Park.

Members of the development team will also be on hand to discuss the plans and answer any questions which you may have.

Nackington Farm Solar Park would generate 26MWp of electricity by using photovoltaic panels that convert sunlight directly into electricity. The proposed solar farm has the potential to generate enough clean energy to power approximately 7,000 homes.

We look forward to meeting you at the exhibition.
