Sunday July 31st.

Dear John,

1994

A brief note to
let you know that we have
now transferred the various
films onto a VHS video
cassette.

This will free you from the
problem I mentioned earlier
in transferring from my small
8 m.m. tape onto VHS. You will
now be able to play this
direct from a video recorder.

As I anticipated there is a little loss of quality and you might be able to make some slight adjustments by varying the contrast (& occasionally the sound) on your T.V. receiver, to compensate - a slight reduction in contrast may occasionally be beneficial. However - it may bring back memories & occasionally it shows how much water has flowed under the bridge in the last 10-14 years!

Perhaps you will let me know if & when Mervyn may be coming - meanwhile our

Kind regards to you & all our Bridge friends,

Yours, Wally.
