

Hello Jenny, here are the Bridge village pictures -
2 of the 'road barrier' and 3 of general village
scenes. I am pretty sure that the general views are from
1954 - I am not sure about the date of the barrier picture
(though definitely 1950s). I do have some other Bridge
pictures but haven't scanned them yet - they are of
Bridge fete - showing archery and motorbikes jumping
through burning hoops! I will bear you in mind when I come to
scanning those and get some copies to you.

Do let me know if you manage to find out anything about
the pictures,

Alijen Linklater
