Dear Sir,

The Committee have received a letter from Miss E. H. Chandler in which she states that she was demobilised from Military Nursing Service on the 5th instant. Miss. Chandler appears anxious to secure work near London. She has been informed that her post at the above named school has been kept open for her during the War and that in the ordinary way she should return to duties there. I have also asked her to let <sup>you</sup> me know immediately whether it is her intention to return.

I am, dear Sir,

Yours faithfully,

Dear Sir,

In reply to your letter of the 7th instant, I have to inform you that the Committee cannot legally contribute out of their funds towards the expense of tar paving the playground of a Voluntary School.

For the information of your Managers, I send you the following copy of a letter received from the Board of Education dated the 6th January, 1904, on this matter:-

"...I am to inform you that the Board of Education are advised that the persons responsible for repairs to a playground forming part of the premises of a Voluntary School are the Managers of the School."

I accordingly return the estimate of Messrs. Chitenden & Simmons, Ltd., for carrying out the proposed work.

I am, dear Sir,

Yours faithfully,

Elem: W. 64703/9 M.

Dear Sir,

In reply to your letter of the 2nd instant I am directed to inform you that the Committee will of course pay for the water supplied by meter for the use of the children and washing purposes in the Classrooms. The Committee, however, do not understand how it is the Teacher's Dwelling-house is supplied by the same meter, as the house is entitled to a separate domestic supply; I am therefore to suggest that the Managers should approach the Water Co. with a view to getting a supply of water to the house separate from that of the School and for the charge for such supply being assessed upon the rateable value of the house. The Managers are entitled to this arrangement.

If this course be followed no difficulty will arise as to the apportionment of the water charges between the Managers and the Committee.

The rent due to the Managers will be included in the next schedule of payments to be made by the Committee.

I am, dear Sir,

Yours faithfully.

Dear Mr. Pope

I was very pleased to get your papers & congratulate you & the children on the excellent work they show as well as for the fine set of questions. You are quite right, I'm sure, about the effect of note taking. There is nothing so equal writing a thing out to impress it on the memory.

As far as judging between 2, 3 & 4, I'm going to shirk that job & compromise by giving each child a 2/6 prize. This will bring your prize money a little above the amount your numbers entitle you to (11/6 instead of 9/6). Their good work deserves a little encouragement.

I am also sending you fifteen certificates for those children who have got over 30 marks (75%).

May I conclude by saying that Bridge School has got the highest average
